with a dinner at 6:00

SATURDAY, NOVEMBER 18TH

Cattle on Display in morning
NOON - Lunch will be served
**1:00 PM - 2ND ANNUAL MATERNAL
SHOWCASE SALE**

Carroll & Debbie Sadler

I would like to invite everyone to join us on November 18th for "The Maternal Showcase". My family, myself and our entire team here would like to thank you for the interest and support you have given to our program. Our goal is to provide you with the best customer experience in the business.

As for the cattle, our vision here has remained constant, to raise an animal that thrives in their environment and does so for a very long time at a highly efficient level. This year's offering consists of the very best we have to offer out of the cow families that are represented here. As you look through the catalog you will find some of the most maternally bred pedigrees in the angus business. As we look into the future and begin the task of rebuilding America's depleted cowherd numbers, we feel the angus female will be at

the forefront. These types of females are responsible for producing bulls that go out and make America's cowherd profitable for ranching families.

We will be hosting a pre-sale social on Friday night the 17th where we invite everyone to join us at the ranch. We look forward to seeing everyone there and enjoying the fellowship.

-Brent Sadler

I want to welcome you to the Second Annual Sadler Ranches "The Maternal Showcase" Production Sale. We are excited to say the least about this outstanding group of Angus females, we can truly say they are the best yet. Brent Sadler and crew has put together a prolific set of donors to build this stunning set of females that are built around Maternal, phenotype, structure, fertility and much more! It truly is an amazing story to say the least how blessed we all are to be working on this Historic Angus Ranch Formally Limestone LLC. The crew at Sadler Ranches have put a ton of work into restoring the ranch over the past three years to its past life with a more functional stunning flair! As you study the catalog you will find the very best, we have to offer from the front to back of the catalog. Rest assured that the sale cattle have been sorted through numerous times and any little thing no matter how small of an issue have been sorted off. Our goal is for you to purchase a problem free foundation female to add to your herd. Feel free to swing by the ranch anytime for a full tour of the sale cattle/Sadler cow herd prior to the sale. If you haven't noticed this offering was built around a select few top end Maternal Donor females through an intensive embryo transfer program. That being said they are dialed tight to consistently produce exactly what they need to offer the very best possible lineup year after year. As well as building a solid foundation that are the backbone today and in the future of Sadler Ranches. If you have questions, please feel free to contact any of us. We look forward to seeing you November 18th, in Perkins, Oklahoma.

Mike Marlow

NOVEMBER 18, 2023 - PERKINS, OKLAHOMA - 1:00 PM

COLEMAN DONNA 8113

DONNA 8113, The Ultimate Donna! The Foundation Female here at Sadler Ranches that has literally just been tapped into. What she has done in a short period of time is staggering: Sadler Heritage 1006, Sadler Donna 1002, Sadler Donna 2510, & Sadler Donna 2522, all four sale highlights from our Inaugural Maternal Showcase Sale. Donna 8113 grabbed the attention of breeders from far and wide due to her eloquent design, jet front 1/3 and next to perfection udder. An own daughter of the phenomenally popular maternal queen Coleman Donna 714, who has single-handedly built an empire that is strong enough to carry on for generations. Donna 8113 follows in her dam's footsteps building a strong dominate force of pure maternal power, with immeasurable style and eye appeal. This year's Maternal Showcase sale will be led off once again by daughters sired by Blairs External Law 266F, Coleman Charlo 0256, Duff 4Real, Coleman Glacier and Coleman Bravo all representing this immensely potent Donor female well!

A new sire group in the Sadler Ranches gene pool, this outstanding daughter of Blairs External Law 266F is a load of red meat with a ton of overall style and eye appeal. Her dam Coleman Donna 8113 headlined our first female sale last year for many reasons, among all she doesn't miss! 8113 is a staple female here at Sadler Ranches, perfect udder, long spine, extremely fertile along with producing consistency across the board no matter the sire. Back to 3004, we feel like this female will take any progressive breeder in the right direction. This combination of valued genetics coming from Donna 8113 and Bar-E-L Erica 74A is next level, proven maternal seedstock. Excellent way to start this year's Maternal Showcase! With proven genetics stacked deep and rich with our very best. The kind that will make an impact.

These spring ET females are our very best of the entire spring born group, with nothing held back. 3007 has all the bells and whistles loaded with performance, maternal, and extreme eye appeal. As you study her from every angle, she is explosive muscled, huge bodied yet very feminine through her front 1/3. We feel this mating of Blairs External Law 266F by Donna 8113 has consistency and maternal locked in this eye appealing package. Females like these are hard to come by, so here's your chance to add value to your progressive program.

This is a member of the most elite embryo flush to date here at Sadler Ranches. 1004 is honestly the most ideal female in terms of type and kind in beef production today. With her massive amount of body and rib shape, wide topped, and expressive hip that flows down to her lower stifle, not to mention perfect udder quality that you will notice right away. 1004 has all the ingredients to follow in her dam Donna 8113 footsteps and possibly grab the lead. Her powerhouse brother, Sadler Heritage, has proven to be a dominant force for producing red meat efficiently with phenotype galore. Her full sister, Sadler Donna 1002, highlighted last year's Maternal Showcase Sale going to Duff Cattle Company and C-4 Land and Cattle. Her dam Donna 8113 has truly made a large impact on our operation as she is a rare and valuable breeding piece loaded with a maternal and overall phenotype that has proven to be an unstoppable force here at Sadler Ranches. Females like these are hard to come by and definitely hard to turn loose of. Here's your chance to add extreme value to your program today.

Due to calve 10/20/23 to Hummel Argentine (19919948). Vet Checked Safe. Updated calf info on sale day.

Generations of maternal power backing this young fall open female. This mating has proven itself to the top of the herd status here at Sadler Ranches. 2525 is consistently stout, built with three-dimensional shape that bulges from her topline through lower hip and quarter. She combines this with an ultra-attractive, smooth, feminine look about her head and neck. She balances up from the side with impeccable body capacity that runs deep to her flank. Her full brother, Sadler Heritage, has made a positive impact here at the ranch producing overall muscle, volume, and true grass efficient seedstock.

Excellent combination of high-end maternal genetics coming from her dam Donna 8113, as well as extreme power, plus consistency from her sire Duff 4Real 16250. 3006 in our opinion has nothing but blue sky ahead of her. As you study this stunning female you will appreciate her width of top, length of spine, and fluid movement. In terms of phenotype, 3006 is very feminine in her design and has all the ingredients of becoming a big-time producer. When we decided on this mating, we felt the combination of Donna 8113 and OCC Juanada 927K would be a home run mating and 3006 has definitely brought it to life.

First off, I want to point out that 3102 stands near perfect on her feet and is in the Top 1% for FEET EPDs! Closed toed with added heal and overall structure along with an ideal feminine design. 3102 has mega potential to become a full-blown maternal machine with Donna 714 stacked on the top and bottom of her pedigree. Feminine yet attractive is the best way to describe her, coming from the long list of highlights from the Donna 8113 tribe.

This negative birth weight, stunning female sired by the ultimate calving ease sire, Coleman Night Watch 9259. 3040 is a chiseled out, level hiped, eye appealing spring born female that we feel has a ton of potential. The stacked genetics behind this female are proven producers that we have total confidence in that have dominated in the sale ring and in the pasture. 3040 dam is a flush mate to Donna 1037 that was a highlighted bred heifer in last year's offering going to ZWT Ranch.

COLEMAN DONNA 9309

COLEMAN DONNA 4303
Dam of Donna 9309

Friends, Donna 9309 is a spotlight donor female that is the best of all spectrums of the beef business. Not only is she in the Top 1% Phenotype, she records Top 1% DOC, Angle, Claw, and \$M! As well as Top 3% YW and Top 4% \$W. We honestly can't say enough about the impact this young donor female has made at a rapid pace here at Sadler Ranches. Her overall design, laser topline, hip, and hind leg along with udder quality is unmatched. Now when it comes to pedigree, all the stars lineup, being a full sister to Coleman Night Watch, and Coleman Banker. You can count on her dam, Coleman Donna 4203, to pass on the total maternal package. 9309 is a considered an essential donor female to carry the torch as one of the most dominant forces of the Donna cow family in our program.

10	0.6	77	140	36	0.34	0.45	14	26	0.37	0.89

Excellent way to start off the Donna 9309 cow family. Sadler Donna 2606 is a performance driven, extremely feminine, sound made female that is sure to hit the donor pen. This is what we like to call an investment opportunity, the genetic package that this female combines is what we strive for here at Sadler Ranches. We feel the guess work is taken out of the equation especially with a dam as special as Donna 9309 backing her. 9309 is in our opinion a true maternal Angus female that is producing offspring that are sure to go the long haul. With added length, actual milk, and performance all wrapped up in an eye appealing package. 2606 is the real deal and a member of the first calf crop of our leading herd sire Sadler Heritage 1006.

1104 is an extremely impressive female that is long bodied and wedges up into an angular front 1/3. She has a perfect udder and high degree level of phenotype. Sired by Maverick 7384 who has done an incredible job producing practical, stout made females and bulls across our program. 1104 has a real performance plus maternal pedigree and backs it up in person. Her dam, Donna 9309, is a remarkable female loaded with maternal that raises a huge calf year after year and bounces back as far as fleshing ability immediately. 9309 is a full sister to the Sadler herd sire Coleman Night Watch and Coleman Banker.

Bred to Coleman Equity 0320 (20178446). Vet Checked Safe. Estimated Calving of 10/15/23.

Here's one that will put you right in the driver's seat. This fall born stunningly constructed, high profiling yet powerful daughter out of the popular Blair's External Law, has all the making of a big-time long term breeding piece that will add flair with added performance and maternal traits coming from her inheritable dam. Her dam Donna 9309 not only has an untouchable feminine phenotype, with an impeccable udder, she is stacked with real data starting with her top 2% CED, 10% Weaning Weight, 3% Yearling Weight and top 1% in these three traits as well Claw, Angle and \$M in the entire Angus breed. Like we said, this is the future of Sadler Ranches, the door is open, and opportunity is knockin!

This is the future right here. We are offering a fall born ET heifer calf sired by the outcross sire Hummel South America that already has a powerful three-Dimensional design, wide topped and hip as well as a deep soft body shape. Stupendous amount of future in this young donor prospect. Her dam Donna 9309, in our eyes, checks all the boxes of what we think is essential to build a massive cow family around. Here's your chance to invest in cutting edge outcross genetics with a load of balance, eye appeal and an immense amount of maternal and growth.

HUMMEL SOUTH AMERICA

BLAIRSWEST ERICA 84H

BAR L-E ERICA 74A
Dam of Erica 84H

84H is possibly the best female to walk in the Sadler Ranches pastures and we are happy to offer her very best first daughters in this year's Maternal Showcase Sale. 84H is an essential part of the future here in our program, as a foundation she contributes balance with explosive eye appeal, foot quality, length of spine which adds true pounds to the ground as well as actual real muscle expression, exceptional udder quality and most importantly fertility and maternal! The combination of the Pathfinder proven sire Coleman Charlo 0256 who has a proven solid line of daughters and sons that have been nothing short of consistent producers across the globe, and her dam Bar-E-L Erica 74A who has taken the crown for producing remarkable females and consistent power sons, like Blair's External Law to the next level of greatness. 84H is not in the shadows, she is the future here at Sadler Ranches. Study this year's catalog, we will let you be the judge!

A full sister to lot 14B, 3207 is a spitting image in terms of phenotype, with her wedge front 1/3, long level top line, and added muscle shape she truly has big time potential. We can't say enough about her dam, Erica 84H, and what she has been able to accomplish in a short period here in our program. 84H will soon be a household name in our opinion in terms of extreme muscle mass, volume, excellent udder quality in a package that is desirable to not only us but anyone who has seen her here at the ranch. 3207's granddam Bar- E-L Erica 74A has made a huge splash in the Angus industry by producing excellent phenotype yet high maternal and powerful sons and daughters. This mating of Duff Napoleon and Erica 84H has us excited and we feel strongly that these two sisters will make a massive impact.

You want to talk about one with the wow factor, this female is sure to catch the eye of even the most progressive breeder. If you were challenged to draw a female of your liking on paper, 3215 would be the one it would resemble. To start with, she has the perfect Angus head and a streamlined top with an abundance of rib shape and muscle galore all wrapped up in an extremely eye appealing package. Her dam, Erica 84H, could very well be the one of our best donors on the ranch in terms of phenotype, udder quality, with extreme muscle, and volume. The genetics backing 3215 are as proven as they get in the Angus breed. Her sire Duff Napoleon 232 is a proven power-plus maternal driven sire of extreme phenotype, real power, and ease of fleshing.

A match made of balance and strong genetic lines here folks. This young fall born female is sired by our powerhouse herd sire Hummel Argentine, who has done a miraculous job producing high end, low input seedstock that excel in our environment. Her dam 84H is profound in terms of extreme muscle mass, volume, excellent udder quality in a package that is desirable to not only us but anyone who has seen her here at the ranch. 3514 granddam Bar- E-L Erica 74A has made a huge splash in the Angus industry by producing excellent phenotype yet high maternal and powerful sons and daughters. Don't miss out here guys, this is one that came directly from the future of Sadler Ranches.

DUFF DIXIE ERICA 1986 2137

DUFF RED BLOOD 18114
Sire of Dixie Erica 1986 2137

An absolute highlight of this year's offering! This female is ultra-complete and with exceptional presence. She is flawless in her lines, bold through her center body, soft structured and incredibly correct in her angles. 2137 is sheer cow power to the max being loaded with overall dimension and maternal presence. On the move, she handles herself elegantly with a huge, confident stride and maximum skeletal flexibility. All the while she is remarkably huge bodied, with tremendous udder quality. Aside from her phenotypical advantages, she has a pedigree that needs little introduction to the Red Angus breed. A daughter of the popular Duff Red Blood 18114 out of the beautiful, patterned MANN Red Box 55C daughter Duff Dixie Erica 16148 1986. Two epic pregnancy mating's that you can build a program around.

Without a doubt "Fair Wind" has the credentials to write a whole new chapter in Red Angus history. From nose to tail, Fair Wind demonstrates unmatched presence, quality, and power in a flawless phenotypic package. Genetically he is a true gem, perfectly blending two of the most proven female making sires in the Angus and Red Angus breeds. The cow power stacked in his pedigree is quite substantial as well. Duff Fair Wind semen is not on the open market making this a rare opportunity, especially blended with this stupendous donor female.

Red Warrior 21104- This powerful, performance driven son of Maxed Out has all the bells and whistles, mash the scales kind of muscle, body shape and length. Not to mention he has eye appeal for days. His young two-year-old dam is flat good with excellent udder quality, stemming from the great Lana cow family. Red Warrior sold in the 2023 Power Plus Bull sale for \$55,000 to three progressive breeders including us. 21104 is a load of beef that will without a doubt add pounds to this incredible mating opportunity. Muscle overrides everything on the scales and 21104 is a full load of it. Unmeasurable opportunity here!

The story behind this female starts on one of our trips to Argentina to attend the Palermo Cattle Show. This was not our first trip South to study cattle, but it was my first visit to the famous Palermo Show. While walking through the barn I came upon an Angus female that hit me hard. Great body shape, near perfect feet and legs, extra skeletal dimension and still a great look that would appeal in the ring. This was the kind we went to Argentina to find; Angus cattle that have had generations of selection pressure to thrive in the real world with a presence that works in today's show cattle community. At the end of the day she was named Reserve Grand Champion Female and I went about purchasing full sibling embryos. After the long process of getting the paperwork in order, shipping the embryos to Canada and eventually bringing the weaned calves into the United States we have chosen to offer to the public a full sibling to the heifer that hit me so hard at Palermo. Our goal is to focus on real world cattle that can also succeed in the show ring. I know some say this cannot be done, but I believe it can and this is a huge step in that direction.

Bred on 4/18/23 to Coleman Night Watch 9259 (19583413). Vet Checked Safe. Estimated Calving of 1/25/24.

The rural Argentina environment has produced some of the most maternal and efficient Angus cattle in the world. The breeders in the southern hemisphere have never strayed away from the easy fleshing, stout made, practical kind of cattle that were once easy to find in the US. 114J presents that same feminine and functional build that Angus breeders across the globe strive to create. Great footed, athletic cattle that can cover ground and maintain flesh will always be in high demand. This Hereadero daughter is the prototype for the ideal Argentine Angus. From her foot shape and skeletal build to her perfect udder and easy keeping design, it is hard to not see the unique value in this outcross breeding piece. It has been our goal to base our program around the type of elite females that will always make up the core foundation of what the Angus breed has been built upon.

Sells with a bull calf, 3540, at side by Coleman Night Watch 9259 (19583413). 3540 was born on 9/20/23 weighing 68#.

COLEMAN CHLOE 9146

LAWSONS CHLOE C815
Dam of Chloe 9146

Coleman Chloe 9146 is a member of one of the most elite flushes to date at Coleman Angus where her sister Coleman Chloe 9275 sold for one-half interest at \$375,000 and full brother Coleman Triumph 9145 sold for \$225,000. I'd say in the sale ring they have dominated! All that being said in a short time 9146 has proven herself in the most valuable way here in our program, producing high end powerful offspring that catch your eye immediately. The actual density, wide base, clean front 1/3 and muscle that she passes on to her offspring is undeniable. Not to mention her dam Lawsons Chloe C815 that records BR 2@90, WR 2@117, YR 1@121 that is plain to see she adds real performance to this already staggering maternal female. 9146 is another major building block that is an important part of the future of Sadler Ranches. Study her next generations females, we are excited!

3	1.4	63	102	14	0.5	0.46	13.2	14	-0.07	0.23

This unique breeding piece is just in the beginning stage of what she will bring to the table! Sired by the ultra-proven performance plus efficiency sire, OCC Unmistakable 946U. 3125 is exceptionally long bodied, feminine, balanced female that has an immeasurable future ahead of her we feel like! Chloe 9146 has a substantial amount of real performance, udder quality, with staggering amount of eye appeal. Blending genetics like these will have a long-term effect, with longevity, fertility, ease of fleshing and phenotype coming to the fore front.

COLEMAN DONNA 7301

Every breeder I've talked to over the years has different opinions of what they look for in their cow herd and what they prefer to purchase to add to their operation. Most all of them want a balance of maternal, power, easy fleshing and eye appeal and most importantly a female that is not one sided. Basically, an essential producer of valuable females and bulls and 7301 does all of that in an impressive way! Her stack of classic proven genetics on top and bottom bleed through to this ultimate powerful low input, high output donor. As you scan through her offspring remember you are buying proven performance, maternal, excellent footed genetics that will thrive in the pasture!

Here's a wide topped, thick made female with a substantial sharp clean front 1/3. This female is member of the first calf crop by the ultimate power sire, Sadler Heritage 1006. Coleman Donna 7301 has done a tremendous job here at the ranch producing incredible phenotypes that are easy fleshing and powerful, as well as highly maternal, coming from the combination of Donna 714, SAV Renown and N Bar Shadow X4124. Maternal brother sold for \$16,000 in last year's Maternal Showcase Sale.

This daughter of Coleman Charlo 0256 is rancher designed for the long haul. 1141 is a soggy, deep bodied female, with a staggering amount of muscle, along with an impressive udder. She portrays some of the top maternal genetics when you study her pedigree. Her dam, Donna 7301, is an uncommonly powerful female, loaded with muscle, rib shape, with striking udder! 1141 could easily move directly to any progressive breeder's donor pen.

Sells with bull calf, 3538, at side sired by Hummel Argentine (19919948). 3538 was born on 9/19/23 weighing 56#.

This outcross female is sired by a true maternal plus power sire PM Executive Decision 5'17. When you study this female, you will find a substantial amount of rib and body, with a remarkably perfect hip and hind leg! All the while she stands on essentially perfect feet. We feel like 2158 has an immense amount of true quality with an outcross pedigree that has been proven producers on range conditions.

Bred on 4/14/23 to Coleman Night Watch 9259 (19583413). Vet Checked Safe. Estimated Calving of 1/21/24.

Excellent combination being in the Top 2% CED, 4% DOC., 2% Claw, 3% Angle and Top 3% \$M! 2004 is long bodied with an exceptional amount of spring of rib and depth of body. 2004 in our eyes is an absolute beast, definitely the kind that could step into her powerful dams' shoes. Her dam, Donna 7301, has proven to be an asset for producing consistent, powerful, ideal Angus with phenotype. All the while she adds a big dose of an important trait, the ability to turn grass to pounds! Don't miss this one sale day, she will be the kind to make you money.

Bred on 4/19/23 to Hummel Argentine (19919948). Vet Checked Safe. Estimated Calving of 1/26/24.

COLEMAN DONNA 504

When we set out to build Sadler Ranches main nucleus of donor females, we wanted to infuse proven females with a proven track record. 504 is just that, with her recording right off the bat a BR 4/89, NR 4/110, YR 3/110 and then dominating the 2021 Coleman Angus Bull sale with pure power-plus maternal sons that scattered across the United States. What is the most intriguing, is the amount of fertility, body mass, length, and true efficiency along with performance she transmits is extraordinary. The consistency is evident in this year's offering of Donna 504 seedstock selling and the excitement continues!

Sadler donor sale highlight! 8292 is an extremely impressive performance driven female that is deep bodied and wedges up into an angular front end. She has perfect udder and a high degree level of phenotype and muscle mass. 8292 records a Top 1% \$M and Top 10% \$W both carry a lot of value in today's Angus base. Donna 504, the Sadler Ranches donor dam of Donna 8292, has been an immensely popular producer of highly marketable, powerful, easy fleshing, maternal females, and power bulls. 8292 is unique in terms of producing extra powerful offspring that mash the scales with a substantial amount of eye appeal. Don't miss this tremendous opportunity to purchase a proven donor.

Bred to Hummel Argentine (19919948). Vet Checked Safe. Estimated Calving of 2/19/24.

Check out the EPD profile on this performance packed, powerful, and chunky female. Ranking in the Top 15% of the Angus breed for WW and YW EPD, 2573 is sired by a flush mate of our herd sire, Hummel Argentine. The rare & popular Argentina bred sire, Hummel South America, has a powerful wide topline and hip, as well as a deep soft body type. Very power packed combination here as you can tell by studying this yearling female. Her dam is notorious for producing added muscle and length along with maternal and considerable eye appeal infused.

Here's one that is sure to set you on your heels! 1136 is a three-dimensional powerhouse, with a staggering amount of rib shape and body! Infused with an abundance of muscle, 1136 has the looks and the pedigree to get her a one-way ticket to any progressive breeder's donor pen. Her dam is the proven Coleman Eriskay 291, that carries remarkable good nursing and weaning ratios. 1136's grandam, Sinclair Eriskay 2N1, is the immensely proven producer of top end progeny with her combination of elite maternal and easy fleshing traits which makes 1136 a top end contender. These kinds of positive genetics are of the long-haul sorts.

Bred on 4/22/23 to Hummel Argentine (19919948). Vet Checked Safe. Estimated Calving of 1/29/24.

Another major building block and opportunity coming straight from the Sadler Ranches donor arsenal. 981 is a maternal sister to the Canadian super star and proven outcross sire, Soo Line Motive 9016. 981 is a well-balanced, stylish made female that has a stout hip and topline, with an immense amount of rib and body mass with a perfect udder. TLA Beauty 5R, her dam, is an ideal Angus donor and at well over 15 years of age, she still looked incredible. The longevity bred into 981 is inevitable, the soundness and foot quality go hand and hand. Don't hesitate here, 981 is a true breeding piece with fertility, efficiency, and overall quality built genetically.

Bull Bred to Duff Ext Law 266F 2125 (20240162). Vet Checked Safe. Estimated Calving of 2/27/24.

This bred heifer is sired by the highly favored Coleman Triumph 9145. A beautifully made female that has a powerful wide body shape, long level hip and smooth clean front 1/3. Her three-dimensional body type defiantly comes from her dam selling as lot 40. 981 truly is a no hole's kind of female that turns forage to red meat! 2222 is a load herself with longevity built in.

Bred on 4/18/23 to Hummel Argentine (19919948). Vet Checked Safe. Estimated Calving of 1/25/24.

FULL sister to the popular Coleman Glacier 041. Glacier took Angus world by storm, with his eye appealing stature and having a full-blown proven dam like Coleman Donna 439. As you study Donna 057 you will find the same features, chiseled out front 1/3, laser topline, substantial muscle mass with excellent udder quality. 057 herself has a dynamic EPD profile for Claw and Angle ranking in the Top 1% and \$M Top 3% in the Angus breed. You could literally write an entire chapter on what her dam Donna 439 has accomplished being the dam of Coleman Glacier 041, Coleman Ace 989, and Coleman Mission 1447 just to name a few highlights on the sire side of her production. Not often to find a donor of this caliber in the sale ring in the prime of her life. Take full advantage of this opportunity to invest in a proven highly marketable donor female!

Bred to Hummel Argentine (19919948). Vet Checked Safe. Estimated Calving of 1/31/24.

Here's a daughter of the \$110,000 ground pounder sire, Coleman Poncho 9426. This smooth made, bold ribbed, easy fleshing female with a stupendous pedigree backing her! Her dam is a full sister to the popular Coleman Glacier 041, as well as being, double bred Coleman Donna 714 top and bottom. We look for 2061 to be an impact female, offering low input, high output seedstock in her near future.

Bred on 4/23/23 to Coleman Night Watch 9259 (19583413). Vet Checked Safe. Estimated Calving of 1/30/24.

COLEMAN DONNA 7205

The ultimate maternal bred female here! From first sight we knew that 7205 would be an eternal female to add to our program to carry on the lineage of the epic Donna 714. Sired by the pathfinder sire, Coleman Foundation 972, that brings pure power, efficiency, and longevity to the table. Then add her dam Coleman Donna 714 to the mix and you have a perfect combination of all the traits we want to build upon! 7205 is an incredible producer that never fails to get her calves to the finish line, mashing the scales year after year. Along with recording top 1% in the Angus Breed for these four important traits Doc, Claw, Angle and \$M! Honestly these kind of Angus females are extremely hard to find, that work their way into the donor pen the old-fashioned way, yielding top end calves. Don't hesitate, her offspring are built for the long haul.

Another excellent patterned, highly maternal female with an impressive Top 1% EPD for CED and \$M in the Angus breed. 3015 stands on perfect feet, is long spined, and has a beautiful smooth front 1/3. Big time cow power backing her from Pathfinder sire, Coleman Charlo 0256 and stemming back to Wulffs EXT 6106 and the queen who started it all, KMK Donna J311. 3015 has a massive amount of spring of rib, with plenty of muscle running over her topline. Her sire, Night Watch 9259 has been stamping them out, producing these high-end, big-time herd builder females that have a lot of value producing low birth, high growth, maternal, yet practical offspring.

This extremely well-balanced daughter of the high profiling Coleman Maverick 7384 has the overall design and genetics to be a big-time producer. Her dam, Donna 9157, is a great producing female from the Sadler donor battery with a remarkable udder, backed by nothing but proven maternal production females from top to bottom. 2006 has the phenotype you look for and the Angus female characteristics to take her to the next level.

*Bred on 4/17/23 to Coleman Night Watch 9259 (19583413).
 Vet Checked Safe. Estimated Calving of 1/24/24.*

SADLER DONNA 2005
 Full sister to Lot 47

COLEMAN ABIGALE 7187

Another top Sadler donor female that has the combination of pure power on the top and bottom side of her pedigree. This SAV Resource daughter has all the major ingredients infused in her that we look for in an ideal Angus female. As you study her pedigree you will find her dam, Abigale 0277, the most powerful full sister to the Pathfinder AI sire Coleman Charlo 0256. 7187 brings her power genetics to life with an abundance of muscle, body shape, long spine with a wedge-shaped maternal front one-third. She passes all these valuable traits to her offspring, and not to forget, running gear as they stand on impeccable feet.
